

WikiTV finds Another Home

Spark Media is proud to announce that wikityv has been licensed by St. John Ambulance for its online training course lifesmart.

WIKI TV (www.wikitv.ca) is a new and innovative piece of online software that gives you the potential to retrieve or add information to anything you see in a video. LifeSmart is an innovative and comprehensive First Aid Training Program designed to reach high-school students throughout Canada. The first and only program of its kind in Canada, LifeSmart has licensed wikityv as another interactive tool to enhance its online course material. Visit <http://getlifsmart.ca> to play the game Spark Media developed for the homepage or views Spark's portfolio to see read an overview of all the interactive tools and wikityv application available to students who register for the online course !
